Napoleonic Catalogue

VERSION 1-24

Contents

| | |
|-----------------------|-----|
| British Army | 5 |
| French Army | 35 |
| Polish Army | 50 |
| Austrian Army | 67 |
| Prussian Army | 81 |
| Russian Army | 97 |
| Hanoverian Army | 104 |
| Spanish Army | 113 |
| Dutch Army | 117 |
| Belgian Army | 118 |

I started 3d resin printing in 2020. I printed a few Napoleonic figures with my printer and was blown away with the detail and found it was such a joy to paint them, I wanted to be able to share this with others.

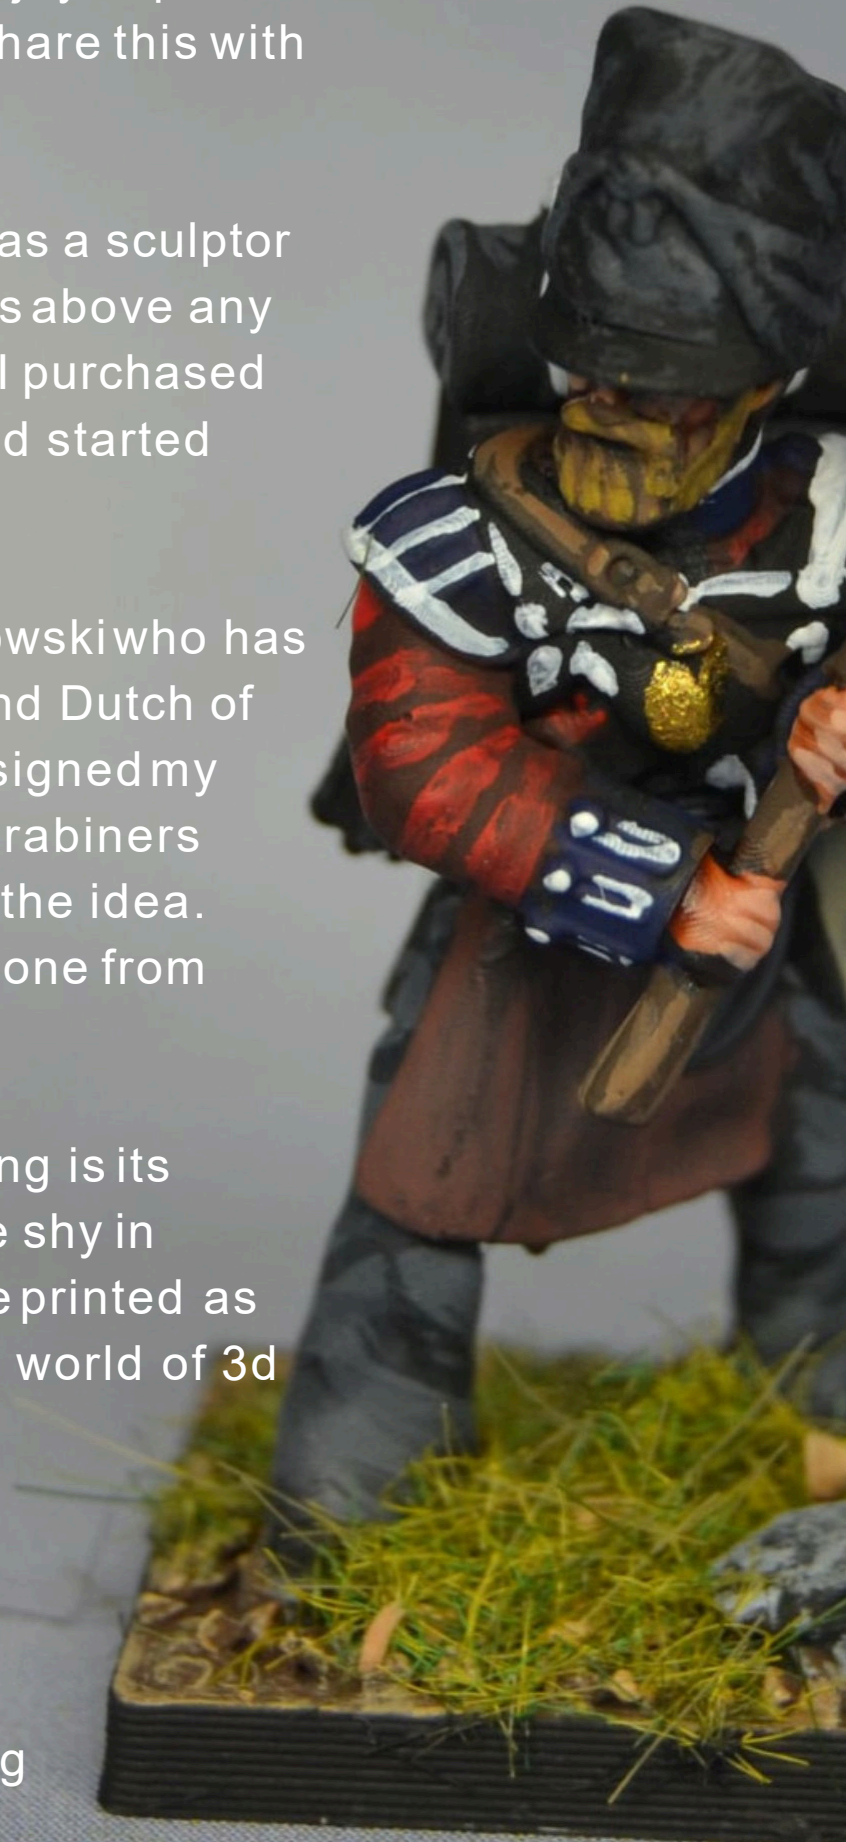

I saw Napoleonic STL files and as a sculptor David was head and shoulders above any other files I had seen. In 2021 I purchased my first commercial licence and started selling 3d printed figures.

Later discovering Rafal Polkowski who has designed some awesome Grand Dutch of Warsaw figures. In 2022 I designed my first set of Waterloo Dutch Carabiniers after a few people suggested the idea. From there the business has gone from strength to strength.

The best thing about 3d printing is its flexibility and please do not be shy in asking me what you would like printed as most things are possible in the world of 3d printing.

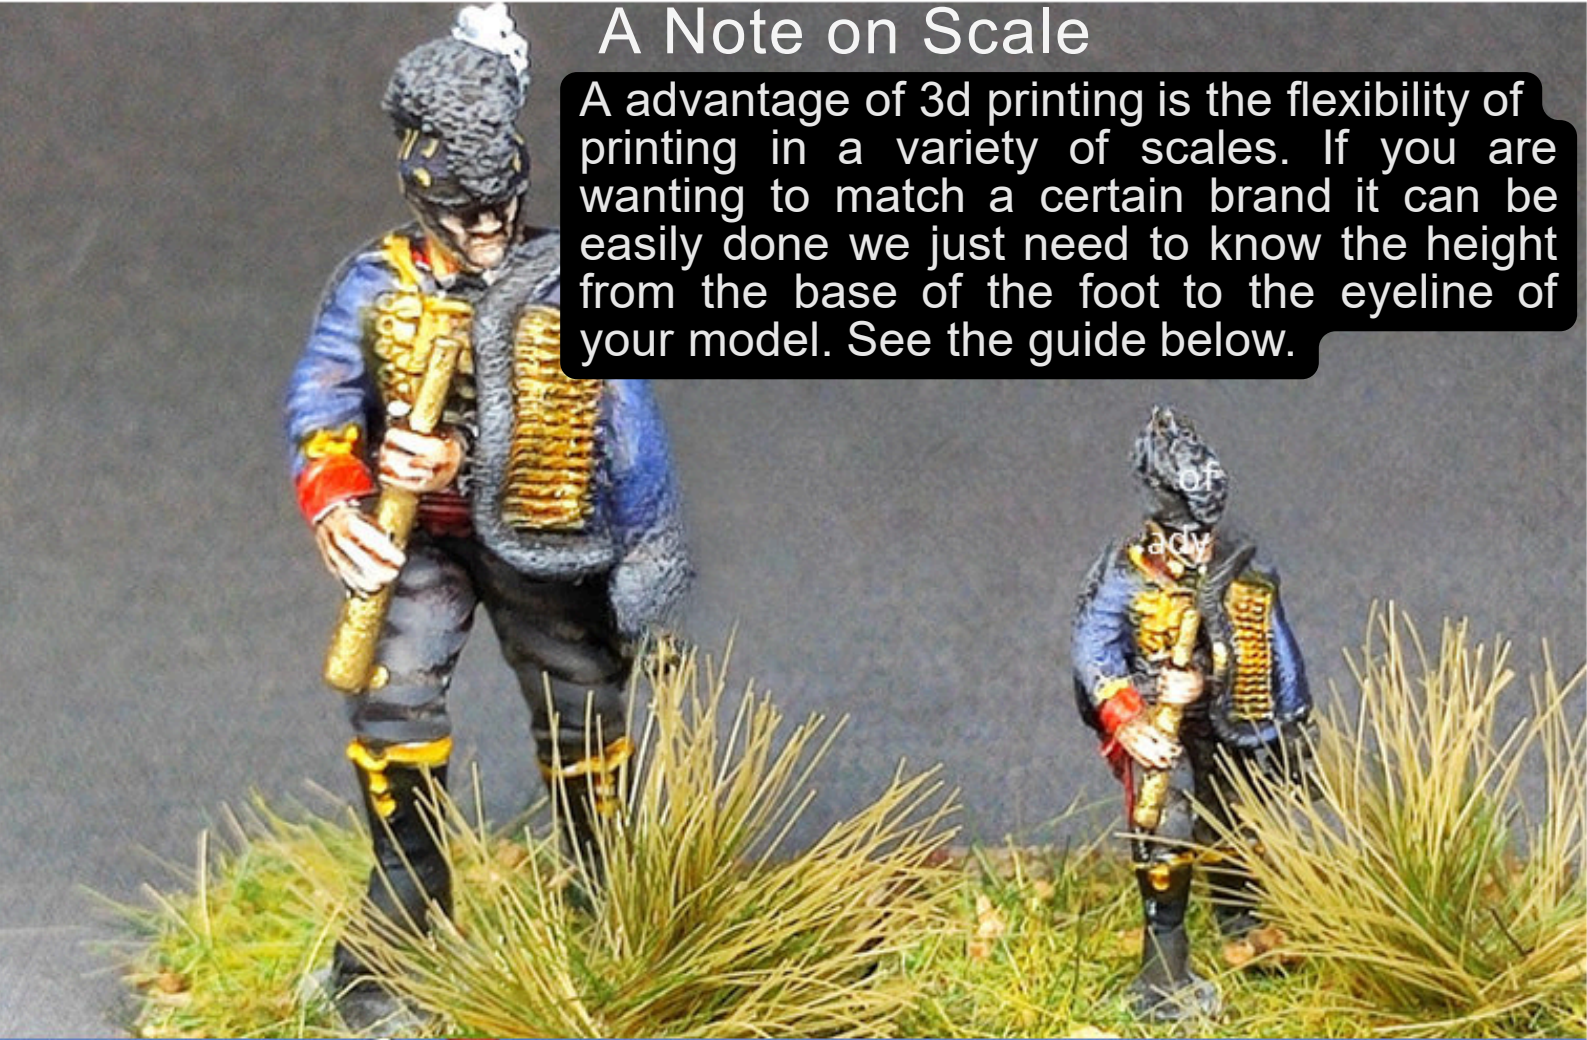

Regards
Kane

email: orders@taylorclanuk.org

A Note on Scale

A advantage of 3d printing is the flexibility of printing in a variety of scales. If you are wanting to match a certain brand it can be easily done we just need to know the height from the base of the foot to the eyeline of your model. See the guide below.

A note on the codes

The First Letter is the Nation (F=French)
 The second letter the type of unit (I=infantry)
 The third Letter is used to distinguish the unit
 and the number specifies the pose;
 So PAF01 would be the first Polish Foot Artillery figure in
 this catalogue

| | | | | | | |
|--------------|---------|------|-----------|--------|---------|--------|
| Size we | 1/32 | 28mm | 1/72 | HO | 15mm | Epic |
| print unless | 52-56mm | 1/64 | (20-22mm) | (18mm) | (1/100) | 13.5mm |
| specified | 54mm | 28mm | 21mm | 18mm | 15mm | 13.5mm |
